Every year the Social Service club of the Department of Computer Science and Application conducts social service activity. This time as a best practice of our department, we planned to conduct an activity which enables common people to be equipped technically. As a first step, we had a meeting with ward members and Kudumbasree coordinator and were given the invitation letter. 10th December 2022, Saturday, we conducted a training program for the people of the second ward of Cherthala Municipality. Around 25 people between the age of 40 and 60 attended the program. Venue of the competition was HM auditorium. Divided the people into different groups and assigned two students from second year and first year to train them, they taught them about the usage of different applications like YouTube, Facebook, Google play etc. They had queries about how to use different applications. Students trained them with demonstrations.

The session started at 10:00 am. Club coordinator, Ms. Kavitha Santhosh welcomed the gathering, Principal Rev.Fr. Baiju George inaugurated the session and delivered the importance of mobile phone education. Ward member Mrs. Sheeba offered felicitation. HOD Mr. Vinod Chandran proposed vote of thanks. The program was very effective. Students taught many mobile applications in a very good way. Participants provided positive feedback about the program. The program ended at 12:45.
