

## FACULTY DEVELOPMENT PROGRAM (FDP) CELL

The Faculty Development Program (FDP) Cell in the institution is a dedicated unit focused on enhancing the skills, knowledge, and professional development of faculty members.

### **Scope**

The scope of the Faculty Development Program (FDP) Cell in the institution is broad and multifaceted, encompassing various areas aimed at enhancing the professional development and overall effectiveness of faculty members. Promoting active learning, student engagement, and effective classroom management techniques while encouraging the use of technology in teaching and learning. Resources are provided for accessing research grants and fellowships and promotion of diversity and inclusion in academic activities ensure that FDP initiatives address the needs of a diverse faculty.

### **Objectives**

The primary goals of FDP Cell include improving teaching methodologies, incorporating modern pedagogical techniques, fostering research and innovation, and keeping faculty members updated with the latest advancements in their respective fields. These are often measured in terms of improved teaching quality, increased research productivity, enhanced collaboration among faculty, and a positive impact on the overall academic environment.
