

VIHAAN

Annual Retreat Programme

Vihaan is an intensive one-day workshop designed to empower faculties with the knowledge and skills needed to excel teaching and learning. This workshop is crafted for individuals eager to enhance their expertise, network with like-minded professionals, and gain practical insights from industry experts. This workshop is an Annual Retreat conducted every year in the month of April or May. Workshop is for all the faculty members of the institution.

Objectives

The primary objective of Vihaan initiative is to foster a holistic and enriching educational environment that empowers students to excel academically, develop critical thinking skills, and cultivate a lifelong passion for learning. Through strategic planning and effective implementation, we aim to create an educational framework that aids teachers to prepare students for academic success, personal growth, and future professional challenges.

Vihaan endeavors are not just about shaping curricula; they are about shaping futures. The impact of our intentional and strategic planning resonates not only in the academic achievements of the students but also in the positive contributions they make to their communities and the world beyond.

Together, faculty, students, and administrators embark on a journey of continuous improvement, collaboration, and academic excellence. The future envisioned is one where learning knows no bounds, and our institution stands as a beacon of educational innovation and inspiration.
