### Report on Reader's Den- A literary exhibition on Children's Literature

Children's fiction is the imaginative creation of a cultural space in which writers find ways of exploring what they want to say to – and about – children: an arena in which children and adults can engage in various kinds of shared and dynamic discourse.' A literary exhibition is an event or display that showcases literature and literary works, such as books, manuscripts, letters, photographs, and other related materials. Literary exhibitions can be organized in various settings, such as libraries, museums, galleries, and cultural centers.

A literary exhibition on Children's Literature is a fascinating and informative showcase that explores the world of children's books. This exhibition brings together a vast collection of children's literature, from classic tales to modern stories, and offers visitors a chance to immerse themselves in the enchanting world of childhood imagination. The exhibition highlights the importance of children's literature in promoting literacy, imagination, and creativity among young readers. It provides an opportunity for people of all ages to rediscover their favorite childhood stories, as well as to explore new authors and genres. A literary exhibition on Children's Literature is an excellent way to encourage a love of reading and foster a lifelong passion for books. The aim of a literary exhibition is to provide a platform for the public to engage with literature and literary culture in a unique and interactive way. Exhibitions may focus on a particular author, genre, or period in literature, or they may cover a wide range of literary works.

'Reader's Den', a literary exhibition centered on children's literature was conducted by the students of IInd BA. English and Communicative English, Post Graduate Department of English on 14th September 2022 from 9:30 AM to 3:30 PM. The exhibition was inaugurated by respected Principal Fr. Baiju George Ponthempilly. Students exhibited various installations and chart works based on fictional characters from children's literature. Minor games were also organized to engage students from other departments too. Students from various departments participated and overall the program was a huge success.

NP-NAAC-DQAC-NIHM-F05 - Seminars 05 (April 28, 2023)

#### PROGRAMME DETAILS & SUMMARY

WEBINAR is conducted in order to enhance to impart the knowledge on food processing industry and hotel management. Grow with US Club of HM hosted the Seminar on the Topic of "Hotel Management & Food processing industry". Resource person: - MR. GILSON MATHEW, Senior Manager NPD/Head Chef, Shri Bajrag Alliance Ltd. Raipur, Our Program resource person explained Food processing provides consumers with the convenience of off the shelf and ready to eat options. It transforms grains, plants and raw foods into a food form we recognize. HM Teaching Faculty Members and Students have participated in our PG Seminar Hall in a conference mode.

#### Content of the Webinar

- Role of food processing industry: Promote export of processed food products, Generate
   Employment. It provides direct and indirect employment opportunities, because it acts as a
   bridge between Agriculture and Manufacturing. Reduce malnutrition: Processed foods when
   fortified with vitamins and minerals can reduce the nutritional gap in the population.
- Food Processing Methods: Cooking, Drying, Smoking, Fermentation, Pickling, Salting and curing, Freezing or freeze-drying, Pasteurization, Chemical additives to extend shelf life
- 3. Food Processing Means to the Economy: Not only is the food processing industry crucial to the way we live day to day, the food processing industry is an important staple to our economy. The food we eat doesn't always go from farm to table like it used to. The vegetables we are eating have survived a series of events including harvesting, cleaning, packaging and transport.
- 4. Food Processing Uniforms & Safety: food processing industry isn't going anywhere and neither is the need for food processing uniforms and safety. There are engineers working to develop the appropriate factory equipment to process and package food, and microbiologists and chemists working directly with the food. Each is working to bring us what we know of food today.
- Food Processing & HACCP: Hazard Analysis Critical Control Points of HACCP is an
  internationally recognized method of managing and identifying food safety related risk.
  Alsco offers a HACCP-conscious uniform program, including a three-tier sanitation process
  to ensure our high-quality product meets strict hygienically clean standards.

## PROGRAMME DETAILS & SUMMARY

SEMINAR is conducted in order to enhance to enhance the room service knowledge in a hotel. Grow with US Club of HM hosted the Seminar on the Topic of "The re shaped future of in room dining". Resource person:- MS. CHINNUMOL, In room Dining Oder Taker in Room Service Department, Move N Pick, Kuwait, Our Program resource person explained Food service is the practice or business of making, transporting and serving prepared foods. The purpose of food service is to supply palatable food prepared under acceptable standards of sanitation, aesthetically served at specified cost. HM Teaching Faculty Members and Students have participated in our PG Seminar Hall in a conference mode.

#### Content of the Seminar

Types of Food Service Systems There are basically four types of food service systems—conventional, commissary, ready prepared and assembly/serve.

- Conventional food service system: Food is prepared in a kitchen on the premises where the food is
  to be served. Following food preparation/ production, food is held hot or cold and served as soon as
  possible. The food may be distributed for service directly to an adjacent service area e.g., in cafeterias,
  restaurants, dining halls of hostels.
- 2. Commissary food service system: In this system, food is prepared centrally at one place, but it is distributed to several remote areas for final preparation and service, since the food production centre and the service areas are located in separate facilities. Hence, a food distributor is necessary to ensure that the food is supplied to the various outlets.
- 3. Ready-prepared food service systems: Food items are prepared well in advance before the time of service and kept frozen until they are to be used. In large cities, many such food items are available e.g. frozen parathas, samosas, cutlets, French fries etc.
- 4. Assembly-service system: In this, fully prepared foods are purchased from manufacturers and only finishing processes such as seasoning, thawing, reheating is done at the place of service. These operations require minimal cooking at the point of service.

NP-NAAC-DQAC-NIHM-F05-Seminars – Seminars 03 (January 24, 2023) SUMMARY REPORT OF SEMINAR (MANTRA) - CREATIVE TOWEL ART

SEMINAR is conducted in order to enhance CREATIVE TOWEL ART Practical learning skills of our students, Grow with US Club of HM hosted the Seminar on the Topic of "CREATIVE TOWEL ART". Resource persons: - MR. JOSEMON JOHNNY & MR. ALLEN V JOSE, Housekeeping Attendants, Burj Al Arab, Dubai, UAE Our Program resource person explained a towel art or Towel Origami originated, but many believe the art form is inspired from origami, which is a 17th century art with its origin in Japan. The Japanese used to make different kinds of sculptures, small in size which primarily used folding of coloured paper sheets. By folding the paper sheet in different ways and combining it with other paper sheets, they were able to create amazing mini sculptures. Over the years this towel art has become part of housekeeping in the hotel industry. Cruise and hotel stewards go through 10 to 15 hours of very hard training programs before joining the housekeeping team. The better the towel art is, the better is the customer experience as customers like them more than flowers and chocolates as the towel art awakens the senses and keep them in a very nice mood every time they look at them. HM, 46 participants both Teaching Faculty Members and Students have participated in our HM auditorium in a conference mode.

# REPORT ON SEMINAR OF OPPORTUNITIES IN ADVENTURE TOURISM WITH SPECIAL REFERENCE TO MOUNTAINEERING

(Interactive Seminar Session to MTTM, BCom TT & Tourism Club Students)

### PROGRAMME BROCHURE

### ABOUT THE PROGRAMME

PG Department of Commerce and Management organised a Seminar on opportunities in adventure tourism with special reference to mountaineering. Mountaineering has emerged as a popular form of adventure tourism, yet there is scant research that develops an understanding of its participants. This paper contributes to a theoretical understanding of mountaineer adventure tourists by evaluating previous work on mountaineering, mountaineers, adventure, recreation and tourism. It uses this to develop a conceptual framework to examine mountaineer adventure tourists, the key influences on their participation in mountaineering and their actual experiences during involvement. In this framework a number of influences encourage participation.

This seminar was arranged to enhance the knowledge and skill for UG Students regarding mountaineering. The target audience of this Workshop was the MTTM and B.com Travel and Tourism students (s1,s3,s5 Bcom TT and MTTM). 48 students from Tourism Club also participated in the seminar. The chief trainer was Mr Preetham Menon. He has more than 20 years of experience in the field of Mountaineering (T QUAD - Training ,Trekking ,Travel & Tourism Tquad Offers Adventure Tourism, Adventure Trekking and Training.
