

NAIPUNNYA RESEARCH FORUM

Annual Report 2022-23

The Naipunya Research Forum (NRF), an initiative of the Internal Quality Assurance Cell, is committed to fostering a culture of inquiry, collaboration, and intellectual growth among students, faculty, and researchers. It serves as a platform for promoting high-quality research that addresses contemporary issues and enriches knowledge across various disciplines. With a strong emphasis on academic excellence and social relevance, the NRF bridges the gap between theoretical concepts and their practical applications, inspiring research that creates a meaningful impact on society. The NRF offers a dynamic space for cross-disciplinary collaboration, enabling researchers to exchange ideas, engage in thoughtful discussions, and collaborate on projects that tackle both global and local challenges. This platform not only supports research endeavors but also nurtures leadership skills, a passion for discovery, and a sense of social responsibility among participants. By encouraging engagement with real-world problems, the NRF empowers students and faculty to contribute to solutions that address key societal issues and drive positive change. Through its dedication to promoting intellectual curiosity and skill development, the NRF has significantly advanced academic and research initiatives. By organizing research events, providing mentorship, and fostering interdisciplinary collaboration, the forum has created an environment where research is actively pursued and valued. Upholding ethical standards and encouraging community engagement, the NRF connects academic exploration with practical solutions, preparing students for success in both academic and professional spheres. As it grows, the NRF remains committed to inspiring future researchers to challenge boundaries, ask critical questions, and make meaningful contributions to society.

The Naipunnya Research Forum (NRF) successfully organized a series of programs during the academic year 2022-23 to enhance research skills and promote academic excellence among participants. These initiatives aimed to equip students, faculty, and researchers with essential knowledge and tools to excel in their research endeavors. Management Software - Faculty Development Program (FDP), This program introduced participants to advanced management software tools, empowering faculty members to integrate technology effectively into their research and academic workflows. FDP on Research Reporting, the forum conducted a specialized FDP focusing on research reporting, covering best practices for documenting and presenting research findings with clarity and precision. Seminar Step-by-Step Guide to Writing a Research Paper

A comprehensive seminar was organized to guide researchers through the process of writing a research paper. It provided insights into structuring, drafting, and refining academic papers for publication. Workshop on Data Analysis Using SPSS This hands-on workshop equipped participants with the skills to perform statistical data analysis using SPSS software, an essential tool for researchers across various disciplines.

Through these initiatives, the Naipunnya Research Forum reinforced its commitment to fostering a robust research culture, enhancing technical proficiency, and inspiring academic excellence.
