

The NRF organized various programs throughout 2023-24 to raise research awareness and encourage active involvement in research activities. The focus was on exploring innovative approaches and best practices in sustainable management. These initiatives included training on research presentations, deconstructing gender narratives through specialized research methodology, understanding research design and methodology concepts, mastering APA and MLA formatting, and fostering collaborations between academia and industry to advance sustainability discussions.

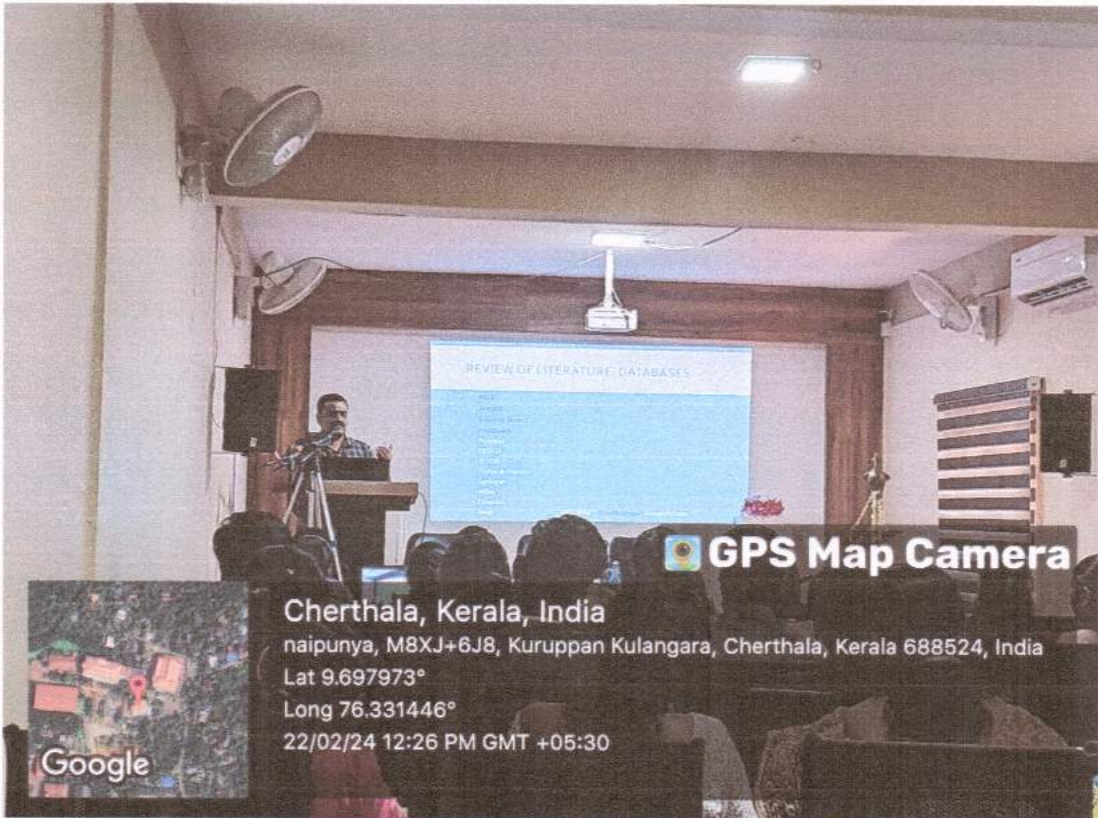

List of programmes conducted by NRF for the year 2023-24

SI NO	PROGRAMME NAME	DATE
1	International Research Conference	19-08-2023
